# Reports to Members

## FROM your PRESIDENT by Mike Sowers

Hello Everyone;  
Wow, I can't believe that it's September already!

As I write, hurricane Florence and several other significant storms are taking aim at the USA and other parts of the world. We offer our thoughts and prayers to all of those in the path of these storms. Pam and I have now returned from our yearly trek to New England to visit our daughters, grandchildren, and friends and are now enjoying the remaining continued summer heat, humidity, and rain here in Florida. Most likely many of you are beginning to think about either moving to warmer parts of the country or getting ready to put your Country Coach into hibernation for the winter. If the latter is true, don't forget to run the winter checklist and effectively winterize.

I'm excited about our upcoming Fall Rally in Dandridge, Tennessee in collaboration with the SouthEast Country Coachers! A grand lineup is planned and last I checked we have 36 Country Coach Motorhomes (72 people) attending! Buddy Bordes continues to do a great job managing our membership and we continue to see both consistent renewals as well as new members joining Country Coach International. Just a reminder to look for other CCIer's in your travels and introduce yourself or use our CCI door hangers to welcome other Country Coachers that you meet along the way.

Pam and I look forward to seeing many of you in Dandridge!

Sincerely;  
Mike

# Meet a Member who Blogs! Myron & Dorcas Whitley

Who are Myron and Dorcas Whitley???

Myron retired from government service as an environmental engineer and bureaucrat in July 2006. Dorcas retired from her job as a senior systems analyst with a major apparel company a few months later. Since then they have spent most of their time touring the US in their 33' 2004 Country Coach Allure.

They spend about 9 months each year traveling in their motor home, and still manage to log about 45 tent nights each year (usually wilderness canoe trips, backpacking trips and an occasional biking trip). They travel with their Australian Shepherd "Matilda".

They have a blogspot and document their adventures which is what got our attention.

Please visit their blogspot at: <http://footslogger.blogspot.com>

## UPDATING YOUR OLDER SATELLITE SYSTEM

By Lee Zaborowski

Our satellite system, like one you may have, is getting old. When we bought our 2007 Intrigue (used) in 2008 we had it updated with current (then) satellite technology, HDTVs, etc. As DIRECTV (DTV) made transponder changes in subsequent years we did all the Nomad software updates, etc. We have been longtime DTV users and our home units and coach units are on the same account, DTV has never given us a problem. Today, our 10 year old set-up is going strong, though I feel like we're on borrowed time. Over the past few years I've heard of many other Country Coach (CC) owners whose systems have stopped working, requiring updating. I've been watching related posts to see what others have been doing, expecting we've have to upgrade soon. The cost of doing this was said to be in the thousands. So far so good but over the last year I thought a lot about what to do when our system fails or DTV changes make it useless. One thing for sure, technology keeps evolving and any changes/purchases we made now could become dated up the road. We're also staying with DTV. Last year we used Verizon for phone, data and internet hotspot. When ATT bought DTV we received an offer from ATT to switch from Verizon to ATT, which included numerous financial incentives plus a free 50 inch LED Smart TV, and upgraded DTV services! Then a nice and inexpensive solution presented itself, one of many ways to go I realize. During the last year DTV developed an app for many phones and some tablets. What a great development! We've being using the app on our Smart phone to watch DTV on the road when we couldn't receive through the coach satellite system, like when camped under trees. But the image is small and the sound poor and low in volume. In July I bought wife Jeanne a new Kindle 8. Low and behold the DTV app worked in it, which it would not do on older Kindles. Check with your Internet Provider about App data transmission charges. As for volume, my son introduced me to the Jawbone mini-Jambox last spring (see photo on next page). This small speaker is awesome and will give you lots of quality sound. Bluetooth did the rest to sync the Kindle and Jambox. There you have it . . . a good, though modest sized image, plus excellent sound, all for just over \$100: Kindle 8 for \$80; miniJambox for \$40.

A nice bonus, if you are an Amazon Prime member you can download almost all you favorite tunes from a 2 million track selection via Amazon Music to your phone for free, then play them on the Jambox. Nice! We're all set **for** now, even if the satellite system fails. Not being full timers, we can live with the periodic smaller screen for viewing . . . and watch Games of Thrones at home on the 50" TV
